Mary Nichols
California Air Resource Board
1001 "I" Street
PO BOX 2815
Sacramento, CA 95812

Dear Ms. Nichols,

I have never before having written a petition letter, but I feel compelled to offer my concern about the rapid increase of global warming.

Industries must be accountable and not given special consideration and should pay for their contribution to GHGs.

We need to reduce pollutants now and not in the distant future when it'll be too late. We need more research for alternate energy sources.

We need more vehicles with zero or low emissions. California should be leading the World in the quest.

Please use your strong influence to bear to make this a better World to live in.

Thank You for your time in reading this letter.

Regards,

Donald Claps
